**ECO-FRIENDLY & ENERGY SAVING**

# R290 CHILLERS

Teco has once again reshaped the chiller industry by introducing the most energy-efficient and environmentally friendly chiller to date for the Aquarium Tank and Hydroponic industries. Centered around a proven Hydrocarbon refrigerant compressor with R290 coolant, the new Teco models, 500, 1000, and 2000 chillers can easily outperform traditional compressors by cutting energy consumption/costs by 30% to 50%. Additionally, R290's environmentally friendly characteristics mean a dramatic decrease in the earth's ozone destruction by up to 600 times over traditional chiller refrigerants.

Less operating cost and more of Earth's ozone sound like a winning combination for everyone!

## R290 BENEFITS:

- REDUCES ENERGY CONSUMPTION/COSTS BY 30% TO 50%
- REPLACES TRADITIONAL OZONE-DAMAGING REFRIGERANTS
- SCORES 3 OUT OF 150 ON GLOBAL WARMING POTENTIAL SCALE

**NOW AVAILABLE**

AT [TECOUS.COM](http://TECOUS.COM)

**NOW STANDARD IN BOTH TK & HY MODELS**

*R290 MODELS ARE COMPATIBLE WITH TECOnnect WIFI MODULE*

*\*R290 MODELS ARE CHILLER ONLY AND NOT EQUIPPED FOR HEATING*
